

PLANT BUSINESS

This project will develop plant varieties that will make horticultural production of native species easier and more profitable. The focus is on models for the development of commercially valuable plants acceptable to Aboriginal people and culture, increased business opportunities for remote Aboriginal people, and greater returns for the genetic resources that are used commercially.

THE COOPERATIVE RESEARCH CENTRE FOR REMOTE ECONOMIC PARTICIPATION IS A RESEARCH CENTRE DELIVERING SOLUTIONS TO ECONOMIC DISADVANTAGE IN REMOTE AUSTRALIA.

PLANT BUSINESS IS PART OF THE CRC-REP'S ENTERPRISE DEVELOPMENT RESEARCH PROGRAM.

PROJECT IMPACTS

- A model for development of commercially valuable crops from native species that is acceptable to Aboriginal people and culture.
- Sustainable growth in the bush tomato industry as a model for other potential crops.
- Small business opportunities for Aboriginal people in remote areas.
- Greater equity share returned to Aboriginal people for plants that are used commercially.
